# Features of the Smart Valve Drive

## For OEM partners:

- Designs with 24 and 230 V operating voltage
- Normally closed (NC) in the standard and four-wire versions
- 90 N actuating force, 3.5 mm stroke
- A compact size, small dimensions, < 37 mm in width
- Modern OEM design

## For fitters:

- New, enhanced slot assembly with a valve adaptor
- IP 54 for 360° installation angles
- First-Open function for easy fitting and commissioning
- Adjustment control

## For end users:

- Very reliable and durable
- Noiseless and maintenance free
- Only 1.2 watt power consumption
- Patented 100% protection for leaky valves
- All round function indicator
- Special adaptor required (not compatible to Möhlenhoff Valve Adaptor System)

## Also ideal in small spaces

Due to its small design, the smart valve drive also fits on heating circuits that aren't very wide.

## Four-wire design with integrated micro switch

Due to the integrated micro switch with potential-free contact, pump or ventilation control can be activated directly.

## Innovative locking system

It's quick and easy to fit and sits firmly thanks to innovative snap-on technology.

## Your OEM partner

Möhlenhoff GmbH has been an established player on the international market for more than 3 decades. The company is a reliable, expert OEM that excels. These factors, combined with innovative ideas and a spirit of fairness in partnerships, have made it a very successful player worldwide for years. As an OEM, Möhlenhoff GmbH supplies products and complete systems for heating, ventilation and air-conditioning systems. As a specialist in control components and systems, the company offers its expertise to manufacturers worldwide. Möhlenhoff GmbH is a global market leader in thermal valve drives.
