

Information according to the REACH regulation

Registration,
Evaluation,
Authorisation and
Restriction of
Chemicals

The European Chemicals Regulation REACH, ensures a high level of protection for people and the environment. According to the REACH regulation, manufacturers and importers must register their chemicals and are responsible for their safe usage.

Möhlenhoff GmbH is a "downstream user" within the context of the REACH regulation. Our customers obtain products in which no substances are released under normal usage and use conditions. Therefore, Möhlenhoff GmbH is not obliged to register itself as well as not obliged to create any safety data sheets.

In accordance with Article 33 of the REACH regulation, we are obligated to inform our customers as soon as we have information on the presence of a substance as listed in the 'candidate list' <https://echa.europa.eu/de/candidate-list-table> in a concentration of more than 0.1 percent by mass.

Checking whether a product or packaging contains substances listed in the candidate list, is an ongoing process. With regard to this, we are in close contact with our suppliers.

Products listed below contains substances from the 'candidate list' in a concentration higher than 0.1%;

Product:

Thermal Actuators Series A5
Thermal Actuators Series A6

SCIP-No.:

8e26f954-ad08-4e08-a2a5-aa651124456b
77dfd105-89e5-414f-9e67-6f33722f9b98

Part:

Wax Element

SVHC-Substance:

Lead

CAS-No.:

7439-92-1

After evaluation of the current available information together with our suppliers, we came to a conclusion that no special precautions are necessary for the safe use of the product, as the substance is bound to the product and will not be released under normal usage.

We will continue to monitor the candidate list and annex XIV closely and have asked our suppliers to provide us the updated information as and when any relevant changes occur.

Yours sincerely

Möhlenhoff GmbH
